

Mehak Singh

TEXTILE & APPAREL DESIGNER

I'm a Textile and Apparel designer exploring the interplay of narratives, colours & textures. Driven by a passion for art and world history, I find purpose in bringing stories to life, through thoughtful and intentional design practices. I'm building an independent jewellery venture as founder and sole creative, bringing these ideas to life while gaining entrepreneurship experience in a creative business.

I'm seeking opportunities to connect, collaborate and co-create with like-minded creatives and studios to work on projects that bring new ideas and approaches to textiles, art, and tradition.
